## EXPERIENCE

### APEX · FUNDRAISERS WE ARE | Full Stack Developer

Oct 2024 - Present [Barcelona, Spain]

- Designed and developed the landing page: [we-apex.com](https://we-apex.com)
- Built and designed an intranet with social media-like features and gamification using **Go** (Golang) + **Postgres** for *backend* and **TypeScript** + **React** for *frontend*.
- Integrated company API data to generate statistics and insights, enabling users to better understand their impact and strengths at work.

### CODE BITING | Intern Full Stack Developer

Jul 2023 - Dec 2023 [Barcelona, Spain]

*Project I contributed to:* [github.com/CodeBiting/cargo-loading](https://github.com/CodeBiting/cargo-loading)

- Implemented an API using **Express.js**, **MySQL** and **Redis** to manage and organize logistics containers, enhanced functionality by implementing unit tests with **Mocha.js**.
- Developed a demo *frontend* for this previous service using **Vue.js** and **Tailwind CSS**.

## PROJECTS

### FUNDFLOW

Feb 2024 - May 2024

*Demo of the project:* [fundflow.arcedo.dev](https://fundflow.arcedo.dev)

- Developed **fundflow**, a *crowdfunding* platform with social media features (follows, likes/dislikes, reviews) as my final project, earning a **10/10 score** for its functionality and implementation. Using **JavaScript** + **Express.js** for the *backend* and **React** for the *frontend*.
