- Red Hat System Administrator I
- Cisco IT Essentials

SKILLS

PROGRAMMING

Go · TypeScript · SQL · NoSQL
Rust · Docker · Linux · Python

LANGUAGES

Native

Spanish · Catalan

Fluent

English (B2)

EXPERIENCE

APEX · FUNDRAISERS WE ARE | Full Stack Developer

Oct 2024 - Present [Barcelona, Spain]

Landing page designed and developed by me: we-apex.com

- Developed an intranet with social media-like components and gamification. Built the backend in Go (Golang) to manage user data, team hierarchy, and more. Integrating company API data for statistics and employee insights. Used Postgres for storage, Redis for caching and Docker for the deployment. Designed the frontend with TypeScript, React and Tailwind CSS.

CODE BITING | Web Developer Intern

Jul 2023 - Dec 2023 [Barcelona, Spain]

Project where I worked in: github.com/CodeBiting/cargo-loading

- Implemented an API using Express.js, MySQL and Redis to manage and organize logistics containers, enhancing functionality through comprehensive unit testing using Mocha.js.
- Developed a demo frontend for this previous service using Vue.js and Tailwind CSS.

PROJECTS

FUNDFLOW

Feb 2024 - May 2024

Demo of the project: fundflow.arcedo.dev

- Developed fundflow, a crowdfunding platform with social media features like follows, likes/dislikes and reviews as a final grade project. Earned a 10/10 score for its functionality and implementation. Built the backend with Express.js and the frontend with React, both in JavaScript.
